

EASY SEAT TIRE LUBE

The Best Tire Lube You'll Ever Use!

- Reduces corrosive damage to chrome plated wheels.
- Unlike water-based lube, it is not corrosive to the TPMS.
- Reduces maintenance, wear and tear on tire machines.
- Makes rotating the balancing dot to valve stems much easier.
- Allows the tire to seat to the tire manufacturer's required lower pressure.
- Easily seats the 3 piece wheels with deep barrel front hoops.
- Provides better control of bead "start" and "stop" during mounting.
- Out performs water or paste type products; requires less lube and saves money.
- Does not nullify nitrogen application like water base tire lube.
- A must for colder-climates – freeze protected.

Introducing the next generation of tire lube – Easy Seat Tire Lube reduces maintenance and wear on tire machines, while making tire mounting easier, safer, and faster. Easy Seat Tire Lube out performs water and paste type products, and requires less lube, saving time and money.

Easy Seat Tire Lube formulated to provide the following Features and Benefits

- **Waterless: Non-Corrosive**
- **Non-Toxic & 100% Biodegradable**
- **Super Slick for Easier and Faster Tire Mounting**
- **Freeze Protected**
- **Quick Drying**

Application: Apply to tire bead, both sides is most common. For less product use, apply to the contact point of wheel. It can also be used on the tire machine's mounting head. Apply to all three areas for tough applications.

Available Container and Case Sizes

**Case: Four (4) One Gallon Jugs
Five (5) Gallon Pail**
